Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Skoglund (US 5,268,850). The reference discloses an electrical outlet 34 including an outlet box and plug receptacle 32. The electrical outlet includes a back-up power supply 16 that is adjacent the outlet box (column 6, lines 25-37, housing 21 maybe part of junction box 34a, 34b an clipped onto the generator 16) to supply current to the electrical contacts when electrical power to the electrical mains is interrupted (abstract). Furthermore, the contacts are connected to electrical main.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2, 3 and 5-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Skoglund (US 5,268,850). The reference does not disclose the ups located in the

recess and/or behind a wall. It would have been obvious to one having ordinary skill in the art to have located the ups behind a recess and/or wall for a clean look.

The reference further is silent on the type of battery being used. It is a common knowledge in the art to use a rechargeable battery so that the battery maybe reused to reduce the waste consumption to the environment. Therefore it would have been obvious to one having ordinary skill in the art to have used rechargeable battery as part of the back-up power supply in order to extend the replacement period of the battery while "saving the environment."

Response to Arguments

Applicant's arguments filed 7/10/06 have been fully considered but they are not persuasive. The extensive amendment to the claims in the previous response resulted in the Final Office Action. The current amendment also resulted in a Final Office Action because the added portion can be found in the same reference used in previous Office Action.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2838

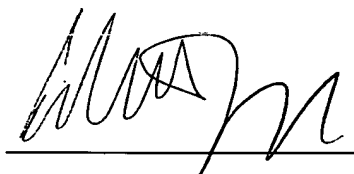

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
